

DRIVE TIME

AUDIENCE FRIENDLY

Make peace in the backseat during car trips with the dual screens on the Philips Portable DVD Player PD9012M/37, powered by the car charger. Mount the matching 9-inch LCD screens to headrests with a simple strap, so passengers on both sides get equal views. Now, who picks the movie? \$140. (888) 381-0749; usa.philips.com.

FRESH AIR

Let's say you're that rare breed whose car doesn't smell like cigarette smoke, unwashed dog, last week's fast food or the gym bag in the backseat. Passengers will still breathe better with a Schatzii AIR Ionic Car Air Purifier and Car Charger. Plug it into the cigarette lighter to minimize odors, fumes, dust, pollen and airborne contaminants, and gain two USB ports to charge devices. \$50. (415) 812-8695; schatzii.com.

WHERE NOW?

More than just mapping your route, Garmin's DriveLuxe 50LMTHD acts as an on-board navigator, alerting you to speed-limit changes, tricky interchanges, traffic updates and other safety info. Voice-activated navigation keeps your hands safely on the wheel. Customize it to display incoming texts and calls on screen. \$239. (888) 237-8289; bestbuy.com.

On the road again

Just because you're traveling doesn't mean you have to leave all the comforts of home. Take some with you to make the trip more pleasant.

CREATURE COMFORTS

HAND ME A SAMMIE

Minimize pit stops on the road by keeping snacks and drinks handy in the car. The Koolatron P20 Compact Cooler stashes neatly in tight spaces. No ice needed; it plugs into a 12-volt receptacle, and it can also be set to keep warm food warm. \$140. (800) 265-8456; koolatron.com/us/en.

REST EASY

Strange place, strange bed, strange noises—how's a body supposed to get some sleep? Drift off with soothing white noise from Marpac's Rohm portable electronic sound machine. Less than 4 inches in diameter, it packs easily, masks distracting noises wherever you go and recharges via USB cable. \$35. (800) 999-6962; marpac.com.

WELL CONNECTED

ROUGH AND READY

Wherever you need to power up your mobile devices, the myCharge All Terrain portable charger can take the heat—and the cold, the dirt, the water and the roughhousing. The durability of these rugged, military-grade chargers, with both smartphone and USB ports, means you can get away from it all, but still stay in touch. \$40. (248) 668-4500; mycharge.com.

ON TRACK

Can't promise you won't get lost, but at least you'll know where your luggage is. Toss a LugLoc Tracker in your suitcase and turn on the tracking app, and the geo-tracking technology will use worldwide cellular networks to keep a trace on your bag wherever it travels. \$70, plus monthly service plan. support@lugloc.com; shop.lugloc.com.

SMART SUITCASE

Bluesmart One is a single carry-on bag with a multitude of solutions. Easy-access pockets for electronic devices speed you through airport check-ins. Other clever built-ins include a location tracker, device charger, TSA-compliant remote locking and digital scale. You'll have to roll it yourself, though. \$449. support@bluesmart.com; bluesmart.com.
