TRAVEL GEAR

BY: RUSS WALSH

CARE AIR Wireless Tethering System.

The Case Air connects and transfers images instantly from your camera to a phone, tablet or computer. Control advanced camera settings including focus points, exposure settings, bracketing, time-lapse, and more. View your images on a larger screen to check critical focus and composition, or use Live View or movie mode for real-time capture to share and collaborate as you create.

The travel photographer will love the control found in the Case Remote App for time-lapse frames and bracketing exposures. The app functions are well thought out and easy to navigate. Considering the small size and affordable price, the Case Air should be a "must have" in every camera bag.

Pack Less. Experience More.

Unbound Merino

Stylish, simple Merino wool apparel that can be worn for weeks or even months - without ever needing to be washed. That means you can ditch the big suitcase, because all you'll need is your carry-on. Unbound Merino stays clean and fresh no matter what you put it through. From the airplane, to the gym, to a night out on the town, you can wear an Unbound Merino T-shirt every single day for weeks on end. That means when packing for a trip, you can drastically cut down the amount of clothing you pack.

Revant F1L Sunglasses Style and Protection!

Designed to meet ANSI Z87.1 safety standards for high mass and high-velocity impact protection, and it holds up in the most demanding conditions while still managing to provide total light coverage. The high-wrap design rests perfectly on your face and blocks out headache-inducing periphery light. Revant Elite lenses are premium, precision-crafted lenses that deliver superior clarity and meet the highest quality standards for UV protection and polarization.
